

Location: Oliveto hotel, Desenzano del Garda

Tuesday, June 11

9:00	0:05	Tagliaferri	Welcome
9:05	0:45	Nousek	Swift status
9:50	0:45	Kennea	XRT status update
10:35	0:20		Coffee Break
10:55	0:15	Campana	Calibration Status Update
11:10	0:45	Beardmore	XRT cross-calibration: 1) Are we comfortable that the current XRT calibration is accurate, and to what precision? 2) Are we expending the right amount of calibration observing time, and how much (if any) improvement would we expect with increasing this total? 3) Do we have any explanation or at least suggestions of why other missions may disagree from Swift in cross-calibration measurements?
11:55	0:20	Perry/Calpalbi	XRTDAS analysis software status
12:15	1:30		Adjourn for afternoon
Afternoon			Sirmione expedition
20:30	2:00		Conference dinner: Hosteria Croce D'oro, Via Vittorio Veneto 75, Desenzano del Garda

Wednesday, June 12

9:00	0:15	Campana	XRT-BAT intercalibration
9:15	0:30	Beardmore	Gain calibration
9:45	0:45	Evans	O3, GW source classification (?)
10:30	0:20		Coffee Break
10:50	0:15	Melandri	XRT Boresight calibration
11:05	0:20	Campana	GRB 190114C
11:25	1:00	Evans/Kennea/Tohu	LIGO O3 status and discussion
12:25	0:15	Osborne	Action Item Review
12:40	0:10	Burrows	Future meetings
12:50			Adjourn
